

To the FCC. PLEASE do not implement any proposal that will let telemarketers abuse the Indiana's no call list. It has been a blessing not having your dinner interrupted plus not having someone awaken me in the early morning hours. I was getting several telemarketing calls a week then after signing up for the IN no call list I may receive one (1) call per month. Again PLEASE do not ruin a good thing, the IN no call list is great. Thank You.
